

St. Paul Lutheran Church in Neenah is a church that believes in being a “servant like Jesus”. They continually look for ways to be involved in mission work locally, nationally and globally. Mission is to serve others and all ages of St. Paul are actively involved in the mission projects of our church.

Quite often we spend time with the people of Alten Haus, an Assisted Living Center in Neenah, WI. This summer Alten Haus hosted an event call “Faith Factor”. We had teens, moms, and families with young children spend time over a 3 day period at Alten Haus participating in “Faith Factor”.

Angela, the Alten Haus Activities Director, shares what our members did and how important it was to the residents.

- Faith Factor was a huge success and I thank you so very much!
- Monday your church visited with residents, interacted 1:1 and played Bingo at both of our houses.
- Tuesday morning your members cooked some of the best banana bread we have ever had and later played Wii☺
- Wednesday my residents were wore out. Most slept in so the girls just visited with the ones that were up.
- They visited with someone who doesn't accept a lot of 1:1 and it weas amazing that they hung out together the whole time. This person even felt it cheered them up!!
- 2 little girls came in and sang and danced. Wow it was like a commercial and everyone loved it.

St. Paul has an ongoing relationship with this establishment. Over Memorial Day Weekend we had a mini-mission trip for our Sunday school children and families and we went there for 2 hours on a Sunday morning and planted plants in their raised plant beds, played games with the residents, and sang songs with them.

During our VBS week in August we went back to Alten Haus and again, sang songs, played games, and shared hand-made cards and ice cream cones! It was a fabulous sharing of the joy of the Lord and God's loving Spirit!!! See the pictures below:
